شیوع زونا در بین سالمندان خانه‌های سالمندان

آشنایی با مفاهیم، مبانی و شیوه جستجو در PubMed

❖ باز کردن یک فایل ورد و مکتوب کردن فرآیند جستجو

❖ تنظیم استراتژی جستجو بر اساس دستورالعمل گام‌های هفتگانه جستجو

* رسیدن به عبارت جستجو یا سینتکس که منجر به بازیابی مرتبط ترین منابع ممکن شود.

گام‌های هفتگانه برای تنظیم راهبرد جستجو:

گام اول: تعریف سؤال و تعیین شکاف اطلاعاتی (به دنبال چه باید بگردیم)

گام دوم: سؤال جستجو را می‌نویسیم و زیر کلیدواژه‌ها/ مولفه های مهم خط می‌کشیم. ایست واژه ها را به منظور خارج کردن از دایره کلیدواژه‌ها حذف می‌کنیم.

گام سوم: برای هر کدام از کلیدواژه ها در صورت وجود مترادف/ها، کلمات مرتبط و حالت‌های جمع و مفرد را یادداشت می‌کنیم.

گام چهارم: تعیین استراتژی جستجو با بکارگیری عملگرهای بولین و استفاده از امکانات، قابلیت ها و ترفندهای جستجو (فرموله کردن سؤال)

گام پنجم: ارایه سوال و پرسش فرموله شده به سیستم اطلاعات علمی

گام ششم: ارزیابی نتایج بازیابی

گام هفتم: تغییر استراتژی در صورت عدم موفقیت و عدم تحقق اهداف گام اول

گام اول

تعریف سؤال یا هدف:

به منظور مشخص کردن اجزا یا مولفه‌های سؤال

(X Y)

(PICO)

شیوع زونا در بین سالمندان خانه‌های سالمندان

گام دوم

کلیدواژه‌ها / مولفه‌های مهم:

زونا: shingles

AND

سالمندان: aging

 New Chat 

what is a string for shingles?

 GPT-3.5 Turbo

A string for shingles is a piece of string or twine that is used to create a straight line or guide when installing shingles on a roof. This helps ensure that the shingles are installed in a straight and uniform manner, resulting in a more professional and aesthetically pleasing finished product.

[Aging](#)

1. The gradual irreversible changes in structure and function of an organism that occur as a result of the passage of time.

[National Institute on Aging \(U.S.\)](#)

2. Component of the NATIONAL INSTITUTES OF HEALTH. Through basic and clinical biomedical research and training, it conducts and supports research into the nature of the **aging** process and diseases associated with the later stages of life. The Institute was established in 1974.

Year introduced: 2008

[Aging, Premature](#)

3. Changes in the organism associated with senescence, occurring at an accelerated rate.

Year introduced: 1998

[Skin Aging](#)

4. The process of **aging** due to changes in the structure and elasticity of the skin over time. It may be a part of physiological **aging** or it may be due to the effects of ultraviolet radiation, usually through exposure to sunlight.

Year introduced: 1990

[Erythrocyte Aging](#)

5. The senescence of RED BLOOD CELLS. Lacking the organelles that make protein synthesis possible, the mature erythrocyte is incapable of self-repair, reproduction, and carrying out certain functions performed by other cells. This limits the average life span of an erythrocyte to 120 days.

Year introduced: 1967(1965)
